

Mercy Injury Prevention Center

Inspection Checklist

1. **Hand brakes-** Bike should stop smoothly and quickly. Check brakes regularly.
2. **Headlight-** Make sure lights are clean and clear in order to see and be seen.
3. **Handle bars-** Adjust to your comfort and fit. Keep securely tightened.
4. **Seat-** Adjust to body's height, make sure it is securely tightened and parallel to ground.
5. **Reflectors-** Look to make sure they are in good condition, placed on front, rear, and both pedals.
6. **Brakes-** Check for wear on brake pads. Keep clean, and well oiled.
7. **Chain and sprocket-** Snug fit, keep lubricated and clean. Check links for strength and durability.
8. **Pedals-** Make sure they spin freely and have reflectors. Bearings and spindle are well lubricated.
9. **Tires-** Properly inflate with correct pressure. Replace when worn.
10. **Wheels-** Make sure wheels are secured tightly so that they do not wobble and are unsafe.
11. **Spokes-** Check for broken or missing parts. Keep them tight and replace broken ones promptly.

TIP: Keep your bike in good condition by keeping it clean and maintained and have it inspected once a year!
