

# Children Act Fast. So Do Accidents.

Have you used the new pre-measured liquid laundry packets? They contain highly concentrated detergent and should be stored out of reach of children.

Children are curious, and tend to put all sorts of different things in their mouths. Even some things they shouldn't, including liquid laundry packets.

The American Cleaning Institute® (ACI) is committed to helping families keep children safe from laundry packet accidents by educating them on the proper storage, usage and handling of these packets.

**Join us in our efforts to prevent laundry packet accidents! You can start now by following ACI's simple steps to a safe laundry room and routine:**

- 1** Make it a habit to always store the packets out of reach and sight of children.
- 2** Always store laundry packets in their original container or pouch until they are ready to be used.
- 3** Do not let children handle laundry packets.

**Visit [keyledge.com](http://keyledge.com) to watch our safety video on safe laundry practices.**
